

CUSTOM MICROBIAL POWER FOR YOUR TOUGHEST WASTEWATER CHALLENGES.

BIOBLEND *max*

BIO-ACTIVE MICROBIAL BLEND FOR WASTEWATER EFFICIENCY.

BioBlend Max is a powerful, customizable microbial solution engineered for advanced wastewater treatments and formulated to target and break down tough-to-treat contaminants – like herbicides, pesticides, hydrocarbons, and chlorinated organics. BioBlend Max enhances the biological performance of municipal systems, whether used in digesters, bioreactors, or lagoons. **BioBlend Max delivers high-efficiency breakdown where conventional treatment falls short, making it the ideal choice for municipalities facing complex wastewater challenges.**

CUSTOMIZABLE MICROBIAL BLEND

This specialized solution is ideal for digesters, bioreactors, and lagoons, where advanced organic breakdown is required.

BREAKS DOWN COMPLEX COMPOUNDS

Degrades harsh pollutants like herbicides, pesticides, hydrocarbons, and chlorinated organics with precision.

IDEAL FOR ADVANCED SYSTEMS

Formulated for high-performance use in digesters, bioreactors, and specialized treatment environments.

CUSTOMIZABLE MICROBIAL PROFILE

Built to adapt—tailor the microbial blend to meet specific wastewater challenges in targeted applications.

DESIGNED FOR EXTREME CONDITIONS

Performs reliably in harsh or variable environments where standard solutions fall short.

SHELF LIFE

12-15 MONTHS

Storage product between 38° - 86°.
Keep out of direct sunlight in long term storage.

MINIMUM ORDER QUANTITY

5 GALLONS

Packaging in:

- 5 Gallon Buckets
- 55 Gallon Drums
- 265-330 Gallon Tote

LEAD TIME

5-7 DAYS

PRICE PER GALLON

\$45.00
